

Kathleen Rowland graduated UCONN in 2017 with a Bachelor of Science in Chemical Engineering and a minor in Computer Science. She is currently pursuing a Master's in Mechanical Engineering from Johns Hopkins University. She attended UConn's Bridge Program in 2013 and enjoyed participating in STEM outreach events on campus throughout undergrad. She has spent the past 3 years working in the Material & Process Department at Sikorsky, a Lockheed Martin Company. In this position, she has supported failure analysis testing, new material qualification for inclusion on aircraft, and testing for environmental health and safety.
