

Sadiya (Saa-dee-yah) Saulat graduated from UConn in May 2019 with a degree in Computer Science and Engineering. Upon graduation, she joined Synchrony in their Business Leadership Program under the Technology track, a rotational program that allowed her to explore 3 different roles in 2 years. She has had rotations in Information Technology as a Threat Detection Analyst, in Payments Innovation as an API Engagements Engineer and most recently is in the Digital Engineering organization as an iOS App Engineer. As an undergrad at UConn was heavily involved with SWE and has continued the passion for encouraging girls to pursue STEM by being involved with planning Girls Who Code programs at Synchrony.
